MAYOR'S MESSAGE

Gentlemen of the Council:

The year just closed has been satisfactory from the standpoint of city operation. Indeed it may be said that 1935 was the best year for Lansing since the depression began in 1930. Business has been much better, employment more steady, thereby permitting more citizens to pay their back taxes. These conditions have been reflected to the benefit of the city's financial condition. All current bills are paid. There is on hand in the city treasury sufficient money to meet the expenses of the balance of the fiscal year. A year ago the outstanding bonds of the city amounted to \$4,732,000, which was divided as follows:

Water and Electric Bd.	\$2,677,000
Less Water and Lt. Bonding in sinking fund	103,000
	<u>\$2,574,000</u>

General City Bonds	2,158,000
	<u>\$4,732,000</u>

Today the bonded debt is:

Water and Eit. Lt. Bonds	\$1,513,000
General City Bonds	1,923,000
	<u>\$3,436,000</u>

This is a net reduction of \$1,296,000 during the past year. Of the above total of \$3,436,000 of outstanding bonds \$439,500 are owned by City Departments, \$237,500 being held by the Water and Light Board, and \$202,000 being held by the Cemetery Department Perpetual Care Fund. In addition the Water Board has \$600,000 in Government Bonds. This sum is held for working capital.

The real way to tax reduction without impairing progress is to continue the policy of extinguishing the City's Debt. I recommend that we watch the small expenditures as well as the larger ones.

The progress of the city for the year 1935 was marked by the construction of a modern dam across the river by the water board and the elimination of the unsanitary mill race; the rebuilding of the Michigan Avenue bridge, the improvement with Black Top of 14 miles of gravel streets; the construction of a new roadway between the Olds and Durant plants; the building of 2 miles of sewers; the acquiring of Comstock Park, as well as many minor improvements.

Recreation

The city has a well defined plan to furnish recreation to all of its citizens. It has in the past provided facilities for basketball, soft ball, swimming, golf and many other sports. In addition it has provided playgrounds for children.

During 1935 city planned recreation reached its highest point—more people having participated in the games than in any previous year.

The most popular sport from the standpoint of attendance was soft ball. It is

estimated that the attendance at this sport was 250,000. Soft ball reached its climax in September when the State Tournament was held here.

The cost of all recreation amounted to about two cents per attendant and about fourteen cents for each resident of the city.

Municipal recreation builds physical health and moral character. It provides a wholesome use of leisure time. I believe that the activities of the recreation department greatly lessens the cost of certain other departments of government. It is the aim of the city to provide a place in each section where both youngsters and adults may enjoy good wholesome games and where children may play in safety. I recommend that the council give encouragement to the maintenance of our present playgrounds and that it also make provision for the development of the newly acquired Comstock Park and also that the parcel of Railroad land now being acquired in the south end be fitted for public use during the coming summer.

Traffic

During the year just passed there have been ten fatal accidents caused by automobiles on the city streets, as well as many less serious accidents. The city has a traffic ordinance similar in most respects to rules governing traffic in other cities. It is apparent that these killings in our streets cannot be stopped by legislation alone. The cheapest, best and most efficient method of correction would be for each motorist to observe strictly the traffic laws, but since many motorists refuse this method it seems that the council must provide more traffic police men. The pedestrian should be regulated as well as the automobile. I recommend that the council give serious thought to this subject. The slaughter must stop.

Natural Gas

Natural gas is destined to become one of Michigan's most profitable industries. Development to date show that this state has a very large supply of this cheap fuel. It should be made available to the cities at very reasonable rates. I am anxious that Lansing shall profit from this new industry. The council wisely selected a competent engineer to gather all the facts concerning natural gas. The result of his research should be widely published as soon as available so that every voter may be informed when he is asked to vote on the question. I recommend that this question be submitted to the voters at a very early date.

Improvements

The city should continue a moderate program of improvements. The sewer system should be extended so that every section of the city can be served.

The method of improving the gravel streets with black top has proven satisfactory. "Black Top" was largely developed by the city of Lansing. It is no longer an experiment. It should be continued this year.

A start should be made toward fitting up the newly acquired market site.

In order to facilitate the movement of traffic, some of the downtown streets should be widened. I suggest that Capitol Avenue be widened from Ottawa Street north to Shiawassee Street. Federal aid can no doubt be obtained for these improvements. All improvements should be made in moderation so that the budget need not be increased.

I am grateful to the council for the fine cooperation given during the year just closed. The city was able to carry out its plans for the year in a successful manner, because of the business-like manner in which the council conducted its affairs. Notwithstanding all the improvements made, you were able to lower the tax levy. With all the members of the council working together for the sole purpose of making Lansing a better city, 1936 is sure to be another good year for our municipality.

Mayor.

The Committee on NATURAL GAS desires to submit the following report of the progress made to date:

On September 11, 1934, the voters of the City by a more than 4 to 1 vote instructed the Council to have a survey made of the whole project of natural gas. This committee has continually worked on this problem. The committee secured the services of M. J. Dewey of the engineering firm of Dewey and Fisher, who are nationally recognized as outstanding in the field of gas engineers. The result of the studies made are as follows:

1—A large supply of gas is available.

2—There is no existing franchise in Lansing.

3—The proposed plan of municipal operation does not require the approval of the Public Utilities Commission.

4—The cost of a 12 $\frac{3}{4}$ pipe line together with a distributing system is estimated at \$4,400,000. A bond issue for this amount would have to be voted by the taxpayers. A three-fifths vote is required. It is expected that the actual cost will be lower than the estimate. Bonds would be sold only for the actual cost.

5—The rates to be charged by the City must be sufficient to pay operating costs plus interest and bond charges. In the first year it may be expected that the rate charged will be somewhat higher than that charged in years to follow. As the volume of gas consumed increases it will be possible to lower the rate. The larger this volume the lower the rate. The rates suggested by the Engineers are as follows:

Proposed General Rate

First 300 cubic feet or less \$.75

Next 1700 cubic feet 1.50 per M.

Over 2000 cubic feet 1.00 per M.

"A consumer now paying \$2.50 per month for 2,000 cubic feet of 530 BTU gas would, at the above rates, have his bill reduced to \$1.80, since he would only need to use 1,000 cubic feet of the 1,060 BTU natural gas per month. This reduction under the proposed general rate would therefore be 70 cents per month, or 28% of his present gas bill.

"In addition, under our 'Detroit Plan' described later in this report, the annual dividends to domestic consumers, from surplus earnings of the gas utility, would be equivalent to a further reduction in gas rates, the extent of which would depend on the success of the gas department sales efforts and on general economic conditions. The interest of the gas consumer therefore is best served by a maximum effort for the development of a large gas market.

Optional Rates

"The 'Optional rate,' whose objectives have been previously described is intended to cover all classes of gas users from domestic to large industrial consumers in one rate schedule. This rate schedule is tabulated below:

First 300 cubic feet or less \$.75

Next 3700 cubic feet85 per M.

Next 96,000 cubic feet50 per M.
Next 400,000 cubic feet35 per M.
Next 4,500,000 cubic feet30 per M.
Over 5,000,00 cubic feet25 per M.

"The first 750 cubic feet of 1,060 BTU natural gas per month consumed in an average home usually represents gas for cooking. For this service, corresponding to about 1,500 cubic feet of 530 BTU manufactured gas, the cost under the proposed optional rate will be \$1.13, as compared with the present cost (at \$1.25 per M c f) of \$1.87. This represents a reduction of about 40% in the cost of cooking under the optional rate.

"Automatic water heating will consume in the average home, using such gas service, about 2500 cubic feet of 1,060 BTU natural gas. This service will therefore be covered by the 85 cents bracket of the optional rate schedule, or will cost on the average \$2.13 per month. This contrasts with the present cost, under General Rate 5-E, for a similar service of \$6.25 corresponding to 5,000 cubic feet of 530 BTU gas at \$1.25 per M., and represents a reduction of about 66%.

"Room heating will, under the optional rate, cost somewhere between 85 cents and 50 cents per M c f of natural gas, depending on how much these heaters are used during the fall and spring months.

"House heating will cost 50 cents per M c f, and will therefore compare favorably with the cost of oil and high grade coal.

"Commercial gas, under the optional rate, will cost somewhere between 85 cents and 50 cents per M., depending on how much gas is consumed. In contrast with the average present commercial rate of about 90 cents per M. of 530 BTU gas, the average reduction to commercial gas consumers, under the optional rate, may exceed 60%.

"To larger gas users—viz, those using over 100,000 cubic feet of natural gas per month, the optional rate will offer all gas above the first 100,000 cubic feet, at somewhere between 35 cents and 25 cents per M. This is expected to cause the development of large industrial uses of gas, by the industries of Lansing. Also, many of the institutions will adopt gas for heating their buildings and for water heating, since the cost to them of this service would average somewhere between 35 cents and 30 cents per M c f of gas, which would compare favorably with coal or oil.

"All consumers of gas will get the benefits of one rate in contrast with the multiplicity of rate schedules in Saginaw and Bay City, and this uniform rate schedule will not only represent the lowest possible cost of gas but will also result in the maximum revenue obtainable for each class of gas service. Thus both the buyer and seller's interest will coincide.

These are rates suggested by the engineers, but in any event under the municipal plan the matter of rates are entirely within the control of the City. Your committee is satisfied with the soundness of this project and recommends it to the Council and the people of Lansing.

City Council,
Lansing, Michigan.

Gentlemen:

I hereby make application to withdraw my bid for the construction of two monolithic sewer sections on which I was low bidder at the council session held Monday evening, January 13, 1936.

In checking over my bid I find that I made two errors. First, I did not figure in cement. The cement for the job will cost \$14,000. I also omitted an item amounting to \$3,500, which must be paid to the Railroad Company for crossing rights. The total of these two items is \$17,500. Because of these errors I cannot complete my contract.

In case the city should elect to award this contract with the provision that the amount of these two items will be added to the bid, I will be glad to accept the contract. Otherwise, I must ask that my bid be withdrawn.

Thanking you for your consideration,
we are

Yours very truly,

FRY AND KAIN, INC.

President.

To the Honorable Mayor and City Council,
Gentlemen:

At a meeting of the Board of Police and Fire Commissioners held on January 14, 1936, the Board instructed the undersigned to request your Honorable Body to place in the Fire Department Fund, 1B7, the money collected for services of the Fire Department for fires outside of the city limits. This subdivision of the Fire Department Fund is for upkeep of fire apparatus and the money is needed at the present time in this fund.

Yours very truly,

BERTHA RAY,
City Clerk.

HUGO R. DELFS,
Chief of Fire Department.

Referred to Committee on Ways and Means.

January 27, 1936.

Honorable Mayor and
Members of the City Council,
Lansing, Michigan.

Gentlemen:

This commission has carefully considered the suggestions referred to it by your body and hereby make the following recommendations, giving also the reasons therefor:

1. That a traffic squad of at least five men under the direct supervision of a lieutenant be created in the Police department, whose paramount duty will be to supervise and control traffic within the city of Lansing: to enforce the traffic ordinances: to make recommendations wherever necessary and to cooperate with the Traffic Bureau in keeping the necessary records of accidents and other data. Further, that the City Council appropriate sufficient funds in the proper budget in order that this program may be carried out successfully.

We believe that this is the only manner

in which a proper safety program can be conducted and due to the large number of motor vehicles upon the streets of Lansing the time has arrived when motor vehicle traffic requires supervision and direction in every area of the city and it is strictly a work for trained police officers.

2. No parking on Washington avenue between Shiawassee street and Kalamazoo street: and on Michigan avenue from Capital avenue to Mill street, between the hours of 7:00 A. M. and 9 A. M. of any day except Sundays and legal holidays.

We believe that much of the commercial deliveries to business places can be done during this period, that these streets will be clean for moving early morning traffic and that as the stores and banks do not open for business until 9:00 A. M. there is little occasion for parking on these streets before that time.

3. That the City Council forbid erection of any obstructions in the street intersections at any time, whether Christmas trees, automobiles or what not.

Such erections constitute a dangerous hazard, slows traffic and it is believed that Christmas decorations will be as effective if placed on the sidewalk or overhead.

4. That traffic signal lights be installed at the intersection of Capitol Avenue at both Ottawa and at Kalamazoo Streets.

These intersections are very congested at the present time. Placing state highway M-78 on Capitol avenue will make crossing at these two intersections almost impossible.

5. That the City Council make the proper appropriation, estimated at \$2,200, to install the necessary timers to synchronize the lights in the downtown traffic signal system.

While the lights are now timed as well as possible with the equipment on hand, by securing the additional timers it will be possible to control each light to secure a more even flow of traffic with a minimum of interruption.

6. That no parking be allowed on Osborn road between Verlinden avenue and Stanley street.

This necessary to allow the trucks going into the Fisher Body plant to make a safe entrance into the north end of the plant. It will cause no hardship upon any citizen except that it will prevent Fisher employees from using this space for car storage and the company has provided a parking lot ample enough for this purpose.

Respectfully submitted,

GEORGE A. BARKER,
Secretary,
Traffic Commission.

Referred to Committee on Ordinances.

Gentlemen of the Council:

We wish to submit to the City Council at this time certain letters which constitute a report on progress to date with respect to the efforts of the Utilities Committee of City Council to obtain fair and reasonable natural gas rates for the citizens of Lansing.

Attached hereto are the following:

1. A communication from Mr. M. W. Arthur, vice president, Consumers Power Co., Jackson, Michigan, under date of February 4, 1936.
2. A reply thereto from the Utilities Committee of City Council, under date of February 5, 1936, signed by the chairman, Leo J. Smith.
3. A second communication from Mr. Arthur under date of February 7, 1936.

In addition to this correspondence the committee offers a Resolution, which is also attached and a part of this report.

Respectfully submitted,

UTILITIES COMMITTEE OF CITY
COUNCIL,
L. J. SMITH, Chairman.

COPY

February 4, 1936.

To the Honorable Max Templeton, Mayor, and City Council Utilities Committee, City of Lansing, Michigan.

Gentlemen:

On Wednesday, January 29th, our company filed with the Michigan Public Utilities Commission a petition for the establishment of natural gas rates for consumers of Lansing and suburban communities. The proposed schedule, reducing present gas rates 28% or more, is identical with the "General Rate" advocated by the City's consulting engineer. For that reason we had hoped that it would attest our earnest desire to supply natural gas to Lansing patrons at the lowest price consistent with operating efficiency.

The City Council's action Monday night, February 3rd, directing the City Attorney to oppose these rates before the Commission next Thursday, February 6th, or to seek a postponement of that hearing, indicates a wider divergence of views than of the proposed schedule merit thoughtful consideration.

Utility rate controversies are usually marked by a tendency to exaggerate points of disagreement and to ignore entirely the existence of a common ground for constructive negotiations. The Company believed it had reached such a common ground by proposing a rate which would meet the City's primary demand and which would be further reduced in subsequent years.

Is it not a fact that the only genuine differences remaining between the City and the Company are concerned solely with the time and the extent of the contemplated reductions, and do you not agree that the public interest would be best served by a serious, dispassionate, and competent analysis of these differences?

We believe that a mutually satisfactory solution can be found, but only in an atmosphere free of suspicion and antagonism. We suggest, therefore, that the problem be submitted to independent consulting engineers,—your own, and one whom we shall retain.

If this suggestion appeals to you, would it not be wise to hold all proceedings in abeyance until arrangements can be made for these engineers to make a report? Therefore, if the City would be willing to postpone the bond election, we will request the Public Utilities Commission to postpone the rate hearing. As this hearing is scheduled for Thursday immediate action is essential.

Yours very truly,

(Signed) M. W. ARTHUR,
Vice-President.

MWA:IW

February 5, 1936.

Mr. M. W. Arthur, Vice-President,
Consumers Power Co.,
Jackson, Michigan.

Dear Sir:

Your letter of February 4 has been considered at length by the Utilities Committee of the City Council, which includes the Mayor, and I have been directed to bring its unanimous conclusions to your attention, as follows:

1. The Committee expects that your Company, as evidence of good faith, will withdraw its petition to the Michigan Public Utilities Commission for establishment of natural gas rates for Lansing.

2. Previous conferences between the City and your Company on natural gas rates, adequate service, etc., have proven futile. The Committee agrees that the differences can be studied most effectively by independent consulting engineers.

3. Future conferences between respective engineers, if authorized by the City Council, will be without avail unless your Company is represented by an engineer whose ability and experience insure his fair consideration of the problem.

The Committee believes your engineer should be free of any regular employment by your Company, by your parent company, or by any subsidiary of your parent company. His experience should include service on behalf of municipalities. He should be posted on Michigan natural gas developments.

4. The City would be represented by Mr. Maurice J. Dewey, consulting engineer, on whose recommendation the City has proposed to inaugurate a municipal natural gas service. Postponement of the bond election, as requested in your letter, cannot be recommended by this Committee to

the City Council, unless agreement by the engineers on fundamental issues is reached at an early date.

I want to say, in passing, that the Committee takes vigorous exception to your statement that your Company's proposed natural gas rates are "identical with the 'General Rate' advocated by the City's consulting engineer."

In the event that hearings before the Public Utilities Commission are postponed, and assurance is given with respect to the Paragraph No. 3 above, the Committee will bring your constructive suggestions formally before the City Council next Monday night, February 10.

Very truly yours,

UTILITIES COMMITTEE OF CITY
COUNCIL.
L. J. SMITH, Chairman.

Jackson, Michigan,

February 7, 1936.

Mr. Leo J. Smith, Chairman,
Utilities Committee of the City Council,
City of Lansing, Michigan.

Dear Sir:

This will acknowledge your letter of February 5 concerning the possibility of arbitrating the differences between the City of Lansing and the Consumers Power Company with respect to furnishing natural gas in the City of Lansing.

With reference to your request that the Company withdraw its petition to the Michigan Public Utilities Commission for the establishment of natural gas rates in Lansing, we must say that prior to the receipt of your letter this hearing was opened Thursday morning, and considerable evidence was submitted. However, we have requested the Public Utilities Commission to withhold action on this petition until it can be determined whether or not the City of Lansing and the Company may reach an agreement on the rates to be charged for natural gas service.

We have given consideration to your statements concerning the engineer who would represent the Company in these proposed negotiations. We believe Mr. Herbert R. Davis, a natural gas engineer of Buffalo, New York, meets your qualifications. He has acted in rate and franchise cases on behalf of a number of municipalities, both in the United States and Canada. He is also familiar with the natural gas situation in Michigan, having assisted Mr. Dewey in the preparation of a part of the report he made at the request of the Lansing City Council. Mr. Davis has never previously been employed by this company or any of its affiliated companies.

We request your immediate consideration of our appointment of Mr. Davis. If it meets with your approval, we suggest

that he and Mr. Dewey hold their first conference without delay, in order that a preliminary report may be made to your Committee prior to the Council meeting next Monday. These engineers should by then be able to determine whether or not they can agree sufficiently on fundamental points to be reasonably assured they can submit a joint report which will be satisfactory to both the City and the Company. Thus your City Council will be in a position to take appropriate action on the proposed bond election ordinance at that meeting.

Yours very truly,

M. W. ARTHUR,
Vice-President

REPORTS OF CITY OFFICERS

To the Honorable Mayor and City Council,

Gentlemen:

At a meeting of the Board of Health held on February 20, 1936, the Board approved and submitted to the City Council a new "Milk Ordinance" with a recommendation that it be passed.

BERTHA RAY,
City Clerk.

Received and placed on file.

To the Honorable Mayor and City Council.

Gentlemen:

At a meeting of the Board of Police and Fire Commissioners held on March 10, 1936, the Board directed that all data pertaining to the accident to and damaging of Fire Truck No. 1, by being run into by a car, be referred to the City Council. The Board is of the opinion that the city is entitled to recover damages for this accident.

Yours truly,

BERTHA RAY,
City Clerk.

Referred to Committee on Police and Fire.

March 16, 1936.

Honorable Mayor and City Council,
City Hall,
Lansing, Michigan.

Gentlemen:

We respectfully ask for permission to install a 6-inch water main south of the

belt line railroad from Lansing Avenue to
Rosenneath Street on city-owned property.

Respectfully submitted,

**BOARD OF WATER AND ELECTRIC
LIGHT COMMISSIONERS,**

O. E. ECKERT,
Superintendent.

By Ald. Reck—

That the request be granted, under
supervision of the City Engineer.
Carried.

March 16, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

The installation of a semi-actuated type
of traffic signal would, in our opinion, re-
lieve congestion at the intersection of
Main Street and Washington Avenue. The
State Highway Department recommends
this type of equipment in many cases of
similar nature.

The light would probably have to be dis-
continued for the period of time that the
pavement is very slippery, due to the grade
on Washington Avenue.

This recommendation is with the ap-
proval of Chief of Police Alfred Seymour.

Respectfully submitted,

GEORGE A. BARKER

Referred to Committee on Ways and
Means.

REPORTS OF CITY OFFICERS

April 18, 1936

To the Honorable Mayor and City Council
of the City of Lansing, Michigan.

Gentlemen:

At a regular meeting of your Board of Water and Electric Light Commissioners held April 13, 1936, at which a quorum of members were present, the following action was adopted, "that the Council be notified that it will not be necessary for them to make an allowance in the budget for the fiscal year 1936-37, for public lighting costing \$90,605.00 nor for public water supply costing \$67,904.00."

Yours respectfully,

DORR HATHAWAY,

Secretary,

Board of Water and Elec. Light Comm'rs.

Received and placed on file.

To the Honorable Mayor and City Council,

Gentlemen:

At a meeting of the Board of Health

on April 16, 1936, the following resolution was adopted:

"By Dr. McIntyre:

That the City Council be requested to transfer \$74.30 from Health 1-A-10 Clinic Fund to 1-A-1 Salary Fund, to pay Dr. Berg for ten days vacation.

Carried."

Respectfully,

BERTHA RAY,
Secretary Board of Health.

Referred to the Committee on Ways and Means.

April 14, 1936.

Gentlemen of the Council:

I noted with considerable interest a statement in the press that the Lansing Grocers and Meat Dealers Association is undertaking to make Lansing streets safer for the use of the people of the city. This group proposes that the starting point in any safety move is at home—that their own members together with all of their employees shall first see to it that they obey all regulations and that they drive and walk with courtesy.

I believe this is the most practical suggestion that has been made on the subject of safety and traffic. I want to commend the Grocers and Meat Dealers Association for the lead they are taking in this matter. While I believe that the city employees generally obey the traffic regulations, I want to take this occasion to request the heads of all city departments to ask all of their employees to use extra caution while using the public highways. I hope that other businesses will follow the good example set by the food dealers in making our streets safer.

With the cooperation of all, Lansing could soon gain a fine reputation for safety and courtesy.

I ask that all Lansing people strive for this much desired result.

Yours very truly,

MAX TEMPLETON,
Mayor.

Received and placed on file.

April 20, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

On April 25th at 10:15 A. M., a traffic safety show at the Strand theatre is being sponsored by the State Journal and the Traffic Bureau. Prizes will be announced for the winners of the traffic essay contest for junior and senior high school pupils. Additional prizes will be announced for the winners of the traffic poster contest among the elementary school children. The winners of the 25 "courtesy" awards by the Lansing Grocers and Meat Dealers Assn. will also be named.

The mayor and members of the city council are cordially invited to attend this presentation. Tickets will be available at the Traffic Bureau for interested members.

Respectfully yours,

GEORGE A. BARKER,
Secretary Traffic Commission.

By Ald. Busch—

That the invitation be accepted.
Carried.

April 18, 1936.

To the Mayor and City Council,
Lansing, Michigan.

Gentlemen:

An opinion has been requested as to the legal aspects of the matters alleged in a communication from the Lansing Association of Insurance Agents,

Section 53 of the City Charter provides in part:

"No member of the City Council nor any person holding any elective or appointive office under the city government shall be interested in any contract with the city or be a bondsman or surety on any contract or bond given to the city."

The effect of this charter provision is to make illegal and void any city contract in which any city official is interested. Interest, in this connection, means any pecuniary interest. The policy of the law covers a corporation for example, in which the city official is an officer, director or stockholder. In the Numacher vs. City of Louisville, 98 Ky., 334, a contract between the City and a corporation which had a paid employee who was a member of the city council, was held void. In Ferle vs. City of Lansing, 189 Mich., 501, the City was enjoined from paying for lumber sold to the Department of Public Works by the Rikerd Lumber Company because Hiram Rikerd was both a police and fire commissioner and an officer and stockholder of the lumber company. The court said that in adopting this charter provision, "the electors undoubtedly believed that enough good men could be found to administer the government of the city after excluding those who expected or desired contracts with it." Experience has shown that public opinion alone is not sufficient to prevent the tendency to abuse in the matter under consideration. Hence, the strict provision of the charter to insure that no city officer shall undertake to serve two masters.

A beer bond, however, while it is a contract, is not a contract with the city. It runs to the people of the State of Michigan and is filed with the Liquor Control Commission. An insurance man selling a beer bond from which he derives a commission is interested therein but, not being a contract with the city, the transaction is not prohibited by the charter.

Nor do I find it to be otherwise made illegal for an alderman to sell a beer bond to an applicant for a beer license unless upon the agreement or understanding that the vote of the alderman for approval of the license is to be given. In such case, the situation amounts to the receipt of a bribe by a public officer.

Of course, a public officer can make improper use of his position without committing a crime. If an alderman attempts to sell a beer bond, under the threat, express or implied, that a refusal will result in disapproval of the license, anyone would say that such use of a public office is not morally proper.

Any further opinion in the matters complained of must depend on a more complete statement of the facts.

Respectfully submitted,

J. W. PLANCK,
City Attorney.

Received and placed on file.

April 18, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

At a meeting of the Traffic Commission on April 17, the proposed change in the routing of M78 was discussed. The recommendations of the Traffic Commission are attached to this letter for the consideration of your honourable body.

Respectfully submitted,

GEORGE A. BARKER,
Secretary Traffic Commission.

TRAFFIC COMMISSION RECOMMENDATIONS

That if the passenger car traffic on M78 is routed on Capitol avenue from Main street to Saginaw street the following recommendations should be made to the City Council:

1. Truck traffic should follow the present routing on Main Street to Cherry Street and on Cherry Street to Kalamazoo Street.

2. No angle parking should be permitted on Capitol Avenue between Main Street and Saginaw Street.

3. Capitol Avenue should be widened from Main Street to Kalamazoo Street and from Ottawa Street to Saginaw Street.

4. Traffic signal lights conforming with the present downtown lights should be installed at the intersections of Capitol Avenue at Kalamazoo Street and at Ottawa Street.

5. No left turns should be allowed at the intersection of Capitol Avenue at Michigan Avenue.

6. That the public should be encouraged to use other streets than E. Michigan Avenue, such as Kalamazoo Street, Shiawassee Street and Saginaw Street to facilitate east bound traffic.

7. It is recommended that the City Council reconsider the matter of no parking before 9:00 A. M. on the following streets: on Washington Avenue from Kalamazoo Street to Shiawassee Street; on Capitol Avenue from Washtenaw Street to Ionia Street; on Michigan Avenue between Capitol Avenue and Grand Avenue; and on Grand Avenue between Washtenaw Street and Ionia Street.

The purpose of this change is not due to congestion at this hour, but rather to make space available for shoppers rather than all day parkers and to assist in making necessary freight and other deliveries

to business houses. The transportation companies will cooperate with this move.

GEORGE A. BARKER,
Secretary, Traffic Commission.

Referred to Committee on Ordinances.

To the Honorable Mayor and City Council
of the City of Lansing:

Gentlemen:

Included in the lists of streets that are presented each year for Black Top (oil aggregate) are many streets that have a depth of gravel of less than six inches. It is poor practice to construct Black Top on such streets because after removing 2½" in order to lay the new surface very little is left for a foundation. Some of the streets on which this has been done are now breaking up and maintenance costs will be excessive on these sections.

Therefore, I recommend that no Black Top be laid on streets where the depth of gravel is less than six inches. I also would recommend the passage of an ordinance placing a definite weight limit on vehicles using Black Top Streets.

Respectfully submitted,

S. C. JACKA,
City Engineer.

By Ald. Kircher—

That the recommendation be referred to Committee on Ordinances.
Carried.

REPORTS OF CITY OFFICERS

April 27, 1936.

To the Mayor and City Council,
Lansing, Michigan.

Gentlemen:

An opinion has been requested as to the effect of the resolution introduced by Alderman Rutter on April 20, 1936. This resolution would have no effect whatever on the question of the validity of the franchise of the Central Michigan Natural Gas Company. It amounts to a mere dec-

laration of present intent on the part of the city council.

Respectfully submitted,

J. W. PLANCK,
City Attorney.

Received and placed on file.

April 27, 1936.

To the Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

I hereby nominate for your appointment the following employees for the Justice Court. Said appointments to remain in force and effect for the fiscal year commencing May 1, 1936; said tenure, nevertheless, to be subject to the will of the Justice of the Peace of the City of Lansing; and/or until successors are appointed and qualified:

Myron G. Tucker, Chief Clerk
Percy W. Benjamin, Deputy Clerk
Louis H. Estfan, Deputy Clerk
Myrna Anderson, Deputy Clerk
Elaine Byle, Deputy Clerk
Myron G. Tucker, Probation Officer
Albert F. Witt, Court Officer

I also hereby nominate Phoebe K. Pegg, Deputy Clerk, upon a half-time basis subject to salary adjustments within the budget to provide for her salary.

Respectfully submitted,

SAM STREET HUGHES.

By Ald. Shaw—

That the appointments be confirmed.
Carried.

April 27, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

Traffic on Main Street would have a better opportunity to enter Washington Avenue at the intersection of Main Street and Washington Avenue if a stop sign were placed at the northwest corner to stop south bound Washington Avenue vehicles. This would make a three way stop at this intersection, an installation which has proved successful at Saginaw Street and Washington Avenue, a similar intersection of a heavily traveled city street with a state trunk line.

As recommended before, the installation of a traffic actuated signal light would be justified at this intersection.

Respectfully submitted,

GEORGE A. BARKER,
Traffic Bureau.

By Ald. Shaw—

That the Traffic Director be directed to erect the Stop Sign.
Carried.

Dear Sir:

I herewith tender my resignation as member of the Health Board from the Fourth Ward, effective this date.

Yours very truly,

H. E. CHAMBERLAIN.

By Ald. Smith—

That the resignation be accepted.

April 30, 1936.

Gentlemen of the Council:

The city is faced with the necessity of building a Sewage Treatment Works. The council has already entered into a contract with Shoecraft, Drury & McNamee of Ann Arbor to have detailed plans made. As these plans are completed the council will be compelled to furnish funds to pay for the actual construction of the plant. I believe that a large portion of the cost of this project can be paid out of delinquent taxes.

I suggest that a fund be created for this purpose to be known as the "Sewage Treatment Fund," and that into this fund shall be paid all delinquent taxes received from the rolls of 1933 and prior years.

Respectfully submitted,

MAX TEMPLETON,

Mayor.

Referred to Committee on Ways and Means.

May 4, 1936.

To the Honorable Mayor and City Council:

On May 31, 1936, the City of Lansing Fleet policy covering public liability and property damage insurance on City owned cars and trucks expires.

At the present time this insurance is carried by the Auto-Owners Insurance Co. and is written thru the Lansing Association of Insurance Agents.

On June 1, 1936, the policy covering City owned cars and trucks for fire expires; this policy is carried by the Northern In-

surance Co. of New York and is written thru Charles Gutzki Insurance Agency.

Respectfully submitted,

R. E. SANDERSON,
City Comptroller.

Referred to Committee on City Affairs.

To the Honorable Mayor and City Council,
Gentlemen:

Will you please make an appropriation of \$300 as compensation for me acting in the capacity of Custodian of Voting Machines. The work on machines this year on account of complicated primary and combined City, County, State and National Election will be very strenuous. The cut of \$200 in my salary made during the first of the depression has never been restored as cuts in other salaries have been.

I have had charge of the mechanical end of the Custodian work since the machines were purchased in 1928 and feel that I am skilled in this particular work.

A. C. LAYCOCK,
Voting Machine Custodian.

Referred to Committee on Ways and Means.

REPORTS OF CITY OFFICERS

The City Comptroller filed a report showing City's Financial Condition at the close of business on April 30, 1936, which was received and placed on file.

May 11, 1936.

To the Mayor and City Council,
Lansing, Michigan.

Gentlemen:

I have read the transcript of the statements made by some seventy-five vendors to the special committee of the Council.

A large proportion of the vendors appear to have secured their statutory bonds through a member of the city council. However, the statements made to the committee do not indicate any use of his public office, either by way of threat or promise, to secure business. Some of the vendors knew him to be an alderman while others did not. The statements do not furnish any basis for legal action. The transcript has been filed with the city clerk as a public record.

Respectfully submitted,

J. W. PLANCK,
City Attorney.

Received and placed on file.

To the Honorable City Council:

I herewith appoint C. E. Carter to the Police and Fire Board, representing the Fifth Ward.

MAX TEMPLETON,
Mayor.

Ald. Kircher requested that action on the appointment be deferred for one week.

By Ald. Clark—

That the appointment be confirmed.

By Ald. Smith—

Resolved by the City Council of the City of Lansing:

That the request of Ald. Kircher be voted on and that the appointment of C. E. Carter be deferred for one week.
Carried.

REPORTS OF CITY OFFICERS

Mr. Mayor and Gentlemen of This Council:

On Saturday, May 16th, a day was set aside by this Body upon request of Sergeant Snyder of the Police Department and various P.T.A. organizations of the City to sell tags on the streets of Lansing for the purpose of financing a picnic at Lake

Lansing in honor of the Safety Patrol boys and girls, which number about 2,000. They fell short of their goal by about \$350.00, which nearly \$125.00 was made up by business men and individuals who were interested in this event.

There is about \$225.00 lacking yet to make this picnic possible. I understand from Sergeant Snyder that if \$200.00 is donated by this Council an individual will make up the remainder. These children are out in snow, rain or shine making our intersections safe for children passing to and from the school, undoubtedly saving the lives of a great many children of grade school age; therefore, I am asking each council member to give this resolution following an undivided interest.

HAZEN C. RUTTER,
Alderman, First Ward.

By Ald. Rutter—

Resolved by the City Council of the City of Lansing:

That the City Clerk be and she is hereby directed to draw an order on the City Treasurer in favor of Sergeant Snyder in the amount of \$200.00 and charge to the Contingent Fund.

By Committee on Markets—

Resolved by the City Council of the City of Lansing:

That the bid of the Capitol City Wrecking Company for the razing and removing of the buildings on the old car barn property now the new market site, for \$475.00, being the best bid, that same be and hereby is accepted, and be it further resolved that the Mayor and City Clerk be directed to execute a contract with the said Capitol City Wrecking Company in behalf of the City of Lansing, according to said bid presented, and specifications on file.

That inasmuch as the United Wrecking Company bid for the City to pay them \$800.00 in the Committee's opinion is out of question and the Central Wrecking Company, whose bid was \$650.00, both being out-of-town concerns, and would unquestionably employ out-of-town labor.

Inasmuch as wrecking buildings is a specialized occupation your Committee is recommending the letting of this contract to the Capitol City Wrecking Company, located on Hosmer Street in the City of Lansing.

It is with the stipulation that all foundations are to be removed to a depth of one foot below grade which was stipulation of the original bid specification and that same be done within thirty days as per the Capitol City Wrecking Company's bid submitted.

Re: Claim of Clarion D. Smith

Gentlemen:

By statute, the municipality is required to keep its streets in a condition reasonably safe and fit for public travel. Otherwise, the municipality is liable in damages to one injured by an obstruction in the street, provided the municipality had actual or constructive notice thereof, where notice is necessary, a sufficient length of time before the injury to have remedied the unsafe condition. There are certain more or less necessary articles in streets such as shade trees which, although to some extent obstructions, are not such as to make the municipality liable for injuries resulting from colliding therewith, provided they are properly located. A limb of a tree projecting into the street dangerously low may make the city liable. It is a question of fact in each instance.

The claim filed by C. D. Smith states the limb was about 9 feet above the ground. The situation presents a typical jury question: Was the street dangerous or was it reasonably safe? This is a question of fact and not of law.

Respectfully submitted,

J. W. PLANCK,
City Attorney.

Received and placed on file.

REPORTS OF CITY OFFICERS

June 29, 1936.

Honorable Mayor, Max Templeton,
City of Lansing.

Dear Sir:

In the past the First Ward has been considered as the dumping grounds of the city. Our streets were rundown, many streets had no shade and in one area "out houses" were still being used. During the past eighteen months these conditions have been almost completely exterminated and the First Ward has been put well on its way to the levels of other wards.

By the time our black top program is completed this year all streets being qualified for black top, having curb and gutter, will have it. Shade trees have been planted on most of our "bare" streets, sixty feet apart and soon people who use "out houses" and walked as far as a block and a half to pump water will be given a new \$305,000 sewer and water system. Labor for this project has been given more consideration in wages than ever before. This project is being rapidly completed through the cooperation of the Mayor, Max Templeton, and City Engineer, Sam Jacka, so that in the next two months sewer and water will be in, street improvements will be completed and ready for fall and winter use.

The cost of all these improvements in the First Ward totals better than a quarter of a million dollars which is more money and improvement than the First Ward has had in any fifteen years put together. These improvements were gotten at a small cost to the taxpayer, as several years ago a bond issue was voted by the people to take care of about a third of the cost of the sewer and water project, the balance was secured in Washington through W.P.A. and P.W.A., by our Mayor and City Engineer.

I also wish to comment on the cleaning of an old "eye sore" on the corner of Grand River Avenue and Center Street, where the first house erected in the city of Lansing once stood. It is marked by a stone memorial and the ruins of the old building has been changed to a fine free parking lot. The old, much-talked-of mill race is no more.

Thinking of all the wonderful coopera-

tion that has been given the people of the First Ward, I am taking this opportunity in behalf of my people to extend my hearty and sincere thanks to you and the department heads under your supervision.

HAZEN C. RUTTER,
Alderman, First Ward.

P. S. What consideration that can be given we First Warders toward repairing Grand River Avenue will be greatly appreciated.

Received and placed on file.

REPORTS OF CITY OFFICERS

Report of the Gas Inspector for the
ending June 30th, 1936, was re-
and placed on file.

Report of the City Comptroller show-
ing City's financial condition at the close
of business June 30th, 1936, was received
and placed on file.

July 6, 1936.

To City Council:

Gentlemen:

I take this opportunity to report to you
on the stoker placed on the boiler at the
Lansing Children's Home last fall.

In the first place, the matron reports
that the past winter is the first winter
they have kept real warm.

The saving between the oil consumed
each winter and coal used this past winter
is not the only saving. We were burning
2 tons of hard coal every 4 weeks, at a
cost of \$25.00, or \$12.50 per ton, to heat
water being used before we placed this
stoker on the boiler. Our dryer was
electrically driven and the cost for power
was about \$90.00 per month. This dryer
was worn out, and if it were replaced it
would have cost \$1,450.00, but for around
\$224.00 Mr. Brenner took out the electrical
equipment from the old dryer, put on a
steam control and from this same boiler
we have gotten a better dryer than we
could have bought for any amount of
money.

We bought a carload of coal from
Peter's Coal Co., which was rotten and we
had to buy coal to put with this to get any
heat out of it. This car had 66 tons, and
altogether we bought 125 tons of coal and
have 20 tons left of this rotten coal which
we are getting by with by burning it for
steam and hot water.

We used last winter 105 tons of coal at
a cost of \$567.30, and oil for the past two
winters has cost around \$1,400.00 each
winter. This saving alone paid for the
stoker.

I will close in saying that by buying a
good grade of stoker coal this coming
winter we will not use to exceed 70 tons
of coal.

Sincerely,

F. L. PARSHALL,
Welfare Director.

Received and placed on file.

July 1, 1936.

Hon. Mayor and City Council,
Lansing, Michigan.

Gentlemen:

Upon April 20, 1936, the Traffic Com-
mission made a recommendation to the City
Council asking for a traffic Stop and Go
Signal Light at the intersection of Kala-
mazoo Street and Capitol Avenue.

We feel that this light should be installed as soon as possible to clear up the congestion at this point. Traffic is heavy both ways. Although the stop signs help the situation, they do not adequately take care of the traffic.

A copy of this letter will be sent to Mr. Van Wagoner, Commissioner of the State Highway Department, with application for a permit to erect a light pending approval of the City Council.

Very truly yours,

GEORGE A. BARKER,
Secretary of Traffic Commission.

Received and placed on file.

To the Honorable Mayor and City Council
of the City of Lansing,

Gentlemen:

I herewith report that I have given to the City Comptroller an itemized list of sidewalks built and repaired, to be assessed on the July, 1936, tax rolls, a total of \$3,494.10, to be distributed as follows:

REPORTS OF CITY OFFICERS

July 20, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

In the interest of public safety and as aid to the pedestrian traffic a recommendation is made that concrete safety islands guarded by lights and reflecting discs be installed at the intersection of Capitol and Michigan Avenue. The islands would channelize the intersection routing traffic to aid pedestrians with no hindrance to motorists.

The City of Milwaukee, with a splendid city rating, uses this method of handling the crossings. With the type of safety islands used in Milwaukee no concrete barriers are used, which removes the objectionable type of safety zone which was a hindrance to the motorist.

A copy of this letter will be sent to Mr. Wagoner, State Highway Commissioner, for the approval of the State Highway Department.

Respectfully submitted,

GEORGE A. BARKER,
Traffic Bureau.

Referred to the Traffic Director and City Engineer to make an estimate cost.

By Ald. Busch—

Resolved by the City Council of the City of Lansing:

That this council by three-fifths vote of the members elect proposes that the charter of the City of Lansing be amended by adding thereto a new chapter to stand and be known as Chapter 27, which chapter shall read as follows:

Section 395. Any person who has served as a member of the fire or police department of the City of Lansing for twenty-five years, upon making written application to the chief of the department, shall be placed on a retired list, without medical examination for disability. If a member of the fire and police department becomes totally disabled while a member of the fire or police department of the City of Lansing he shall be placed on the list of retired firemen or policemen.

Section 396. All such retired firemen and policemen shall receive a monthly payment equal to one-half the amount of the monthly salary attached to the rank that they held in the fire and police department the date of retirement, during the remainder of their natural lives, except as hereinafter provided, and in event the salary of said rank be changed then he shall receive half of the salary of such rank as changed, provided that any com-

pensation that may be ordered under the Workmen's Compensation Act, so-called, shall be considered as a part of and deducted from, such pension.

Section 397. Total disability shall be construed to mean any injury or the contracting of any disease or illness while a member of the fire or police department of the City of Lansing, arising out of and in the course of such employment, which shall permanently prevent such person from performing his duties in such department. The City Health Officer and two other reputable physicians, one to be appointed by the council, and one by the applicant, shall determine whether or not total or partial disability exist; and if, partial, the extent thereof, and shall certify the result of their findings to the council, which findings shall be binding upon the council.

Section 398. Monthly payments shall be made to the widow of any fireman or policeman of the City of Lansing who shall be killed or whose death shall be caused by any injury or the contracting of any disease or illness, arising out of and in the course of such employment; upon resolution by the council, as hereinafter provided. Said payment shall be the sum of Fifty Dollars (\$50.00) per month during the term of her natural life, or until she remarries, in which case all payments to such widow shall cease. A payment of Ten Dollars (\$10.00) per month shall be paid to each of the children, if any, of such fireman or policeman, as shall be under the age of sixteen years, and all payments to such children shall continue until they attain the age of sixteen years, respectively. Whenever an active or retired fireman or policeman shall be killed or dies from injuries, disease or illness, contracted while a member of the fire or police department, the council shall appropriate a sum not to exceed Two Hundred Dollars (\$200.00) for funeral expenses, same to be paid out of the retirement fund, provided there are no dependents. Whenever a retired fireman or policeman of the City of Lansing dies and leaves a widow, such widow shall receive a monthly payment of Fifty Dollars (\$50.00) for the remainder of her natural life, provided however, that such payments shall cease upon her remarriage.

Section 399. All rewards and proceeds or gifts from any source and all emoluments that may be allowed by the council on account of extraordinary services performed by members of the fire or police department, all fines imposed upon members of the fire or police department for violation of rules, and two percent of the salaries paid to the members of the fire and police department of the City of Lansing, shall be paid into the retirement fund. All retired members shall pay one percent of their retirement salaries into the fund. The balance, if any, necessary for such retirement payments, shall be provided for by the city council in the annual budget, and the city council shall have the authority within the general tax limits fixed by this charter, to raise each

year by tax on real and personal property, such sums as may be necessary to meet the payment of the pensions herein provided. The city treasurer shall credit all moneys received from the police and fire departments to a fund to be kept by him and known as the "Police and Fire Service Retirement Fund." Such moneys shall be used exclusively for the payments of retirements as herein provided. No portion of said retirement fund shall either before or after its order of distribution to any retired fireman or policeman, or to the widow or guardian of any minor child or children of a deceased fireman or policeman be held, seized or taken or detained or levied on, by virtue of attachments, injunction, writ, interlocutory or other order or decree or any process or proceedings whatever, issued out of or by any court, of this state, for the payments of satisfaction in whole or part of any debt, damage, claim, demand or judgment against any such fireman or policeman or the widow or guardian of any minor child or children of any deceased fireman or policeman, and no pensioner shall have the right to assign his or her retirement fund, or any part thereof, but the said fund shall be held, kept and secured and distributed for the purpose of retiring the persons named and for no other purpose whatever. No policeman or fireman, leaving the service by way of resignation or discharge, shall be entitled to receive the two percent of his salary theretofore paid into the retirement fund.

Section 400. In case of emergency, a retired fireman or policeman may be temporarily called to active service, but shall be required to serve only during such emergency. All firemen and policemen retired for disability may at any time be required to be re-examined by the City Health Officer and two other reputable physicians, one to be appointed by the council, and one by the applicant. If such re-examination shall show that such retired fireman or policeman is capable of performing regular duty, the council may rescind the resolutions placing such fireman or policeman upon the retired list and may require him to return to regular duty on full pay.

Section 401. The provisions of this chapter, with reference to payments at retirements shall not be construed to apply to special officers, privately employed patrolmen or special firemen.

Section 402. The provisions of this chapter shall become effective six months after the date of adoption by the qualified electors.

Section 403. On and after May 1, 1937, any member of the fire or police department of the City of Lansing, who has served twenty-five years, and has attained the age of sixty-five years, shall be automatically retired.

Report of the Gas Inspector for the month ending August 31, 1936, was received and placed on file.

Geo. A. Barker, Traffic Director, filed a consolidated Daily Report of the Traffic Bureau for the month of August, 1936, which was received and placed on file.

September 8, 1936.

Honorable Mayor and City Council,

Lansing, Michigan.

Gentlemen:

A traffic actuated signal light would improve the congested traffic condition at the intersection of Elm Street and Washington Avenue. The traffic count on Washington Avenue is heavy and quite constant. On Elm Street the count varies with the working hours of the Olds Motor Works and the Reo Motor Car Co. so that at certain hours of the day a traffic officer or a traffic light is necessary.

With a semi-actuated control the traffic on Washington Avenue would have the right of way except when actual traffic on Elm Street demanded the green light.

Respectfully submitted,

GEORGE A. BARKER,
Traffic Bureau Director.

Received and placed on file.

September 8, 1936.

Lansing, Michigan.

Section 260. The city council is authorized to assess the lands of non-residents, and unoccupied lands of the city, their just proportion of the expenses of all improvements in said city, in the same manner, and the amounts so assessed may be collected in the same manner, as assessments for improvements for other lands.

If any owner shall fail or neglect to construct a sidewalk adjoining his lot or parcel of

land, within such time, not later than twenty days, as the city council shall by resolution determine, after the same shall have been ordered by the city council, the city council may, without further notice, cause the same to be done, and said construction may be paid for out of the contingent fund of the city, and the council may assess such expense as a special tax on such lands in the next general assessment rolls of the city, and such amounts so added shall be a lien on the premises in the same manner as the tax to which it is added, and may be collected and enforced, and if not paid or collected, the land may be sold therefor in the same manner as for general city taxes. All sidewalks built shall be made of such material and be constructed in such manner and of such width, as the city council shall by a general ordinance, resolution or otherwise direct. When the cost of any sidewalk, whether already built or hereafter to be constructed, has been paid for by the owner of the adjoining lot or parcel of land and has been constructed of concrete in such manner and of such width as directed by the city council, the city council shall accept said sidewalk, provided it is in a condition of good repair or is placed in good repair by the adjoining owner or at his expense, and, in such case, the sidewalk shall henceforth be maintained and kept in repair by the city without any special assessment to such adjoining owner.

Resolved further, that the foregoing amendment be presented to the electors of the City of Lansing for approval at the general election to be held on the 3rd day of November, 1936.

Received and placed on file.

September 14, 1936.

To the City Council,
Lansing, Michigan.

Gentlemen:

The City Attorney, City Building Inspector and Health Director, to whom was referred the petition from residents in the vicinity of the Savant Garment Cleaners, 1120 E. Michigan Avenue, concerning a smoke nuisance, beg leave to report that the alleged nuisance does not come within the prohibitions of the smoke ordinance. Tests made by the Building Department of the Umbrascope show that the smoke

emitted from this heating system does not exceed in density the requirements of the ordinance. There is no practical method of measuring the grease content of the smoke.

The Savant Garment Cleaners is located in a "C" Commercial district which permits of the maintenance of a laundry employing five persons or less. This particular business establishment started in a small way some years ago with the use of less than five persons but now employ eighteen persons. To require that this business unit should reduce its working force to no more than five persons would probably not have any direct effect upon the alleged smoke nuisance complained of. If the situation is as bad as is claimed by residents in the vicinity it would seem that they would have an adequate remedy by legal action to abate a private nuisance.

It is suggested that a heating engine might be able to suggest changes in the heating plant or in the grade of oil used which would eliminate the trouble complained of.

It is the opinion of the Director of Health that the inhalation of fumes of smoke from crude oil which has not undergone satisfactory combustion may be a definite health hazard. Asthma and other respiratory tract diseases are doubtless aggravated by the inhalation of such fumes and smoke.

Respectfully submitted,
JOSEPH W. PLANCK,
City Attorney.
E. R. VAN DER SLICE,

Our committee suggests that you arrange to have the city attorney attend this conference if possible. Our committee will call on you early call as to a convenient time for this meeting.

Your very truly,

Traffic Committee

POLICE AND FIRE BOARD

Referred to Committee on Ordinances.

Gentlemen:

Respectfully submitted,

GEORGE A BARKER.

Referred to Committee on Ordinances.

To the Honorable Mayor and City Council,
City of Lansing,
Lansing Michigan.

Gentlemen:

For a number of years past our department has been greatly handicapped for a place to repair our cars and fire apparatus, specially so in the last four years since the Police cars and Police telegraph has been turned over to the fire department for maintenance. The only place that we have to do this work is at Central Station, and often we are compelled to park our cars or a piece of fire apparatus out of doors while the repairs are being made.

With this in mind we decided, with the help of the Mayor and City Officials, to get through a WPA project for the purpose of building a retaining wall along the river in the rear of No. 1 Station and the Telegraph building. This wall would be 150 feet long and would give us the desired land that we had hoped to, in the near future, be able to build a one-story shop. This building would be large enough for repair work, painting fire apparatus and storage space for the fire alarm telegraph department.

Regarding the WPA project—

With the help of the Engineering Department we submitted a project a year ago, in June, 1935. The sponsor's share at that time to be \$1,638.75 and Federal funds \$17,281.40, or a total of \$18,865.15, to complete the wall.

However, this project did not get approved at Washington until about October 15, 1935. At this time we called on the local WPA officials and went over it with them to see if we could get it started. They informed us that we did not provide for the protection from frost, which amounted to \$1.25 per yard; and they informed us that we would have to wait until Spring. About April 1st we called on them again and at this time they told us that they could not start any project that would not be completed by June 30th, as that was the end of their fiscal year. Also due to the fact that they did not have any expert labor on the WPA rolls the City of Lansing would have to stand this part of it; and due to the increased cost of materials we would have to add on 25% more to the project cost. They also told us that if Michigan got its allotment of money, our project would be first on the list. Since then we had given up any hope of getting the retaining wall.

A week ago they informed us that they were ready to go and wanted to get started on it at once but the City of Lansing would have to put up \$6,097.00 and they would complete the rest, about \$20,000.00, making a total of about a \$25,000.00 project.

We realize the fact that this money would have to come from some source out-

side of our department as we have just enough in our budget to get by. During the last four years this department has turned over to the City about this amount for fighting outside fires in Lansing Township.

We are appealing to you at this time to give this your sincere attention and invite you to look over the site of this project, and feel free to ask any questions pertaining to the way this department functions.

Thanking you very kindly, I am,

Respectfully yours,

HUGO R. DELFS,
Chief, Fire Dept.

By Ald. Busch—

Carried.

October 24, 1936.

Honorable Mayor and City Council,
Lansing, Michigan.

Gentlemen:

The traffic commission has considered the matter of a traffic light at the intersection of Logan Street and Saginaw Street on various occasions in the past and

decided that there are many other intersections which require signal lights to a much greater degree and has believed such intersections should be served first.

The request is being referred to the State Highway Department to ascertain if they will participate in the cost of such a light. A new survey will also be made at the intersection so that the commission will have a report at their regular meeting October 30.

In the meantime the light at the intersection of Saginaw at Pine could be moved to Saginaw at Logan if desired as the traffic count at Saginaw at Pine does not indicate the necessity of a traffic light at that intersection.

As soon after October 30th as possible the Traffic Commission will report on the situation at all congested intersections in the city.

Respectfully submitted,

GEORGE A. BARKER,
Secretary.

Received and placed on file.

To the Honorable Mayor and City Council.

Gentlemen:

Under date of July 13, 1936, I submitted to the Board of Education a list of delinquent personal taxes, amount \$5,583.79, which were uncollectable, and requested that they take the necessary action to remove same from the rolls.

They replied under date of October 28, 1936, as follows:

"The Board of Education of the School District of Lansing, Michigan, has directed me to acknowledge receipt of your letter wherein you submit a list of delinquent personal taxes, with the request that the Board of Education take action to remove the same from the rolls. The total of such taxes which you list is \$5,583.79.

Among the taxes so listed is an item assessed to the Capital National Bank in the sum of \$4,464.72, with the notation 'No claim filed.'

The Board of Education is advised, as to the last mentioned item, that the same might have been collected had the City Treasurer exercised due diligence, and that the neglect of the City Treasurer renders the City liable for the amount of this uncollected tax.

The Board of Education has, therefore, declined to take the action asked by you; and hereby requests that settlement be made for the 1932 school taxes assessed against the Capital National Bank, Frank Gorman, et al, as shown on page one of the schedule submitted by you.

Yours very truly,

City Board of Education,
H. L. Chamberlin, Business Manager."

This is to advise your Honorabdy Body that said taxes were not charged off by the Board of Education and same are still down as outstanding on our records.

Yours very truly,

NELLIE TALLMADGE,
City Treasurer.
